## MedExpress.co.uk

---

### Overview

History This medexpress.co.uk review has been made upon requests of our readers. The site has started its activity in 2010 focusing on newborn care products. As we have mentioned in previous reviews the main partners at time were birth centers worldwide. These days they have switched for private individuals taking care of their own newborns. In our future medexpress.co.uk reviews we will reveal you what exactly products could be bought from them by private individuals. In the future medexpress.co.uk review we will explain why the company has changed legal entities for individual buyers.

---

### License

Drugs On the say one can buy any products necessary for newborn care at home. For example, that could be different skin creams, including hypoallergenic, oils, skin milk, diapers, talcum and other products. All goods are delivered directly to the door and paid either by bank card along with the order or cash upon the carrier delivery. What is MedExpress.co.uk and what services does it provide? Conclusion In our opinion this site is useful for local customers and it does not have prospects to develop deliveries abroad. But for local customers it works perfectly as the company has its branches around the country and deliveries performed within very short period – it is 1 and a half days. The site sends automatically generated message about delivered products.
