

iMedix: Your Personal Health Advisor.

MedicineNet.com

Overview

History According to medicinenet.com reviews published before, this site was created as early as in 1996 and since then has developed into a resource providing extensive medical information and drugs variety. We hope that this medicinenet.com review will be helpful for consumers.

License

License We have found in one of the previous medicinenet.com reviews that all the necessary permits and licenses necessary for implementation of pharmaceutical practice are duly owned by this pharmacy and would like to remind that to the readers of this medicinenet.com review.

Drugs

Drugs The pharmacy offers to its consumers a great diversity of medications, vitamins, herbs and dietary supplements sorted in alphabetic order by generic name. Basic information on the most popular drugs may be accompanied by original articles and customer feedback. What is MedicineNet.com and what type of information does it provide? MedicineNet.com is an online resource that provides detailed medical and health information. It covers a wide range of topics including diseases, conditions, wellness, medications, and health management, aimed at educating the general public. Is the information provided by MedicineNet.com reliable and trustworthy? The information on MedicineNet.com is created and reviewed by medical professionals and is considered reliable and trustworthy. However, it is recommended to consult healthcare professionals for personal medical advice. What types of health topics can be found on MedicineNet.com? MedicineNet.com covers an extensive range of health topics, including specific diseases, medical conditions, medications, therapies, nutrition, fitness, and preventative health. It serves as an educational tool for both patients and healthcare providers. Can users access medical advice or consultations through MedicineNet.com? MedicineNet.com provides informational content and is not a platform for personal medical advice or consultations. Users are encouraged to consult with healthcare providers for any personal health concerns or medical advice.

Price list

Price list As the site is aimed for both medical professionals and the public, there are several price lists: for retail buyers, small and large wholesalers. All customers, regardless of their status, can get a medicinenet.com discount on a certain range of product, which is changed weekly. Drug Name Price silagra vs suhagra From \$0.15 suhagra force From \$0.1 nizagara 100mg for sale From \$0.2 kamagra 100 From \$0.4 tadacip cipla From \$0.66

Customer support

Customer Support If you have any technical problems while using the service or any questions about products, prices, medicinenet.com coupon activation or delivery, you can contact the pharmacy using a feedback form on the site. However, customer support does not give any individual medical and pharmaceutical consultations. Customer support specialists will contact you as soon as possible.

Discounts

Discounts The pharmacy provides an additional medicinenet.com discount to all its customers for a certain range of medications. Normally, these are the most common drugs, such as inflammatory, antibiotics, antiviral preparations and vitamins. For any purchase for the amount of more than 50 EUR the pharmacy provides its customers with a medicinenet.com coupon, which entitles them to a discount of 15 per cent on all purchases made within 3 months.

Conclusion

Conclusion The site includes online pharmacy, descriptions of diseases, medical term dictionary, images and slideshows collections, and other issues of interest to medical professionals and the public.
