Description

Side Effects Burning feeling in mouth/throat, abdominal pain, diarrhea, or heartburn may occur. If any of these effects last or get worse, tell your doctor or pharmacist promptly. Tell your doctor right away if you have any serious side effects, including: unusual bleeding/bruising, unusual drowsiness, irregular heartbeat. A very serious allergic reaction to this product is rare. However, get medical help right away if you notice any symptoms of a serious allergic reaction, including: rash, itching/swelling (especially of the face/tongue/throat), severe dizziness, trouble breathing. This is not a complete list of possible side effects. If you notice other effects not listed above, contact your doctor or pharmacist. In the US – Call your doctor for medical advice about side effects. You may report side effects to FDA at 1-800-FDA-1088 or at www.fda.gov/medwatch. In Canada – Call your doctor for medical advice about side effects. You may report side effects to Health Canada at 1-866-234-2345. How to use Ginger Take this product by mouth as directed. Follow all directions on the product package. If you have any questions, ask your doctor or pharmacist. If your condition lasts or gets worse, or if you think you may have a serious medical problem, get medical help right away. Precautions Before taking this product, tell your doctor or pharmacist if you are allergic to it; or if you have any other allergies. This product may contain inactive ingredients, which can cause allergic reactions or other problems. Talk to your pharmacist for more details. If you have any of the following health problems, consult your doctor or pharmacist before using this product: bleeding problems, diabetes, gallstones, heart problems. This product might contain aristolochic acid, which can cause serious problems in the kidneys or urinary system (such as renal fibrosis, urinary tract cancer). Symptoms include a change in the amount of urine or blood in the urine. Consult your pharmacist for more details about the contents of this ginger product. Liquid products or chewable tablets may contain sugar and/or aspartame. Liquid products may also contain alcohol. Caution is advised if you have diabetes, liver disease, phenylketonuria (PKU), or any other condition that requires you to limit/avoid these substances in your diet. Ask your doctor or pharmacist about using this product safely. Before having surgery, tell your doctor or dentist about all the products you use (including prescription drugs, nonprescription drugs, and herbal products). During pregnancy, this product should be used only when clearly needed. Discuss the risks and benefits with your doctor. It is unknown if this product passes into breast milk. Consult your doctor before breast-feeding. Consult your pharmacist or physician. Interactions Drug interactions may change how your medications work or increase your risk for serious side effects. This document does not contain all possible drug interactions. Keep a list of all the products you use (including prescription/nonprescription drugs and herbal

products) and share it with your doctor and pharmacist. Do not start, stop, or change the dosage of any medicines without your doctor’s approval. Some drugs that may interact with this product are: medications/herbal products that may increase your risk of bleeding (including “blood thinners” such as warfarin and heparin, anti-platelet drugs such as clopidogrel and ticlopidine, herbs such as danshen/garlic). Aspirin may also increase the risk of bleeding when used with this product. If your doctor has prescribed low doses of aspirin to prevent heart attack or stroke (usually 81-162 milligrams a day), you should continue to take the aspirin. Consult your doctor or pharmacist for more details. Does Ginger interact with other drugs you are taking? Enter your medication into the iMedix interaction checker Overdose If someone has overdosed and has serious symptoms such as passing out or trouble breathing, call 911. Otherwise, call a poison control center right away. US residents can call their local poison control center at 1-800-222-1222. Canada residents can call a provincial poison control center. Keep all regular medical and lab test appointments. If you are taking this product on a regular schedule and miss a dose, take it as soon as you remember. If it is near the time of the next dose, skip the missed dose. Take your next dose at the regular time. Do not double the dose to catch up. Refer to storage information printed on the package. If you have any questions about storage, ask your pharmacist. Keep all medications and herbal products away from children and pets. Do not flush medications down the toilet or pour them into a drain unless instructed to do so. Properly discard this product when it is expired or no longer needed. Consult your pharmacist or local waste disposal company.
