Price list

Price list As far as we understand the pricing policy is rather flexible. Many of us have faced situations when the price on site changes upon you ordering the product. This is not about this site. Yes, some medications here can cost more than it is expected, but at the same time, the price for them is still competitive compared to traditional pharmacies.

Drug Name	Price
silagra 100	From \$0.15
suagra 100	From \$0.1
nizagara 100mg	price From \$0.2
kamagra 100mg	From \$0.4
tadacip 20mg	From \$0.66

Customer support

Customer support This apothecary has one very significant disadvantage related to Customer support service which operates five days a week from 8.00 am till 8.00 pm. This schedule can be unacceptable for those customers who need to ask additional questions related to the purchase they made. However, during working hours operators react rather quickly and provide with qualified recommendations related to medication choice, payment options, delivery time, etc.

Discounts

Discounts In order to be in line with modern trends, the company implements its own bluechew.com discount system aimed at inviting customers to make more purchases and earning bonuses. Thus, in accordance with valid bluechew.com discount system, the regular buyers are entitled to get a maximum 20% rebate if comply with some requirements stipulated in this system. Moreover, they have bluechew.com coupon program under which customers get a coupon in case of purchase amounting to 39 dollars. According to the rules of this bluechew.com coupon program the customer has to collect a certain amount of coupons in order to get a 50% rebate for a certain products range.

Conclusion

Conclusion In general this is a good online apothecary, which deserves mainly positive comments. It is obvious, that the company takes care not only about own income but about customers as well.
