Onlinegenericmedicine.com

Overview

History Onlinegenericmedicine.com, an online pharmacy, claims to offer a wide range of affordable generic medications. Despite positioning itself as a leading Indian pharmacy, certain aspects of the website raise concerns about its legitimacy. This review aims to provide clarity regarding whether this pharmacy is trustworthy or a potential scam.

License

License The domain of Onlinegenericmedicine.com was registered on June 30, 2017, with an expiration date set for June 30, 2025. While there is no concrete evidence of deceptive practices regarding the pharmacy's operational history, inconsistencies in the copyright update since 2018 raise questions. The recent domain ownership update in June 2020 adds to the uncertainty.

Drugs

Drugs Onlinegenericmedicine.com operates as an Indian e-commerce drugstore but fails to disclose its business address, a transparency standard expected from legitimate businesses. The website is registered through Dreamscape Networks International Pte.Ltd, a Singaporean firm that conceals the owner's identities, eroding trust. The cluttered website design and poorly written content with numerous grammatical and spelling errors further undermine its professionalism. What range of medications does Onlinegenericmedicine.com offer? Onlinegenericmedicine.com typically offers a broad range of generic medications. These usually include drugs for various health conditions such as allergies, diabetes, heart disease, mental health issues, and more. Generic medicines are known to be cost-effective alternatives to brand-name drugs. How does Onlinegenericmedicine.com ensure the quality of its medications? Reputable online pharmacies like Onlinegenericmedicine.com are expected to source their medications from certified and reliable suppliers. Quality assurance is typically conducted through regular checks and compliance with pharmaceutical standards to ensure medication safety and efficacy. Does Onlinegenericmedicine.com require prescriptions for medication purchase? Legitimate online pharmacies like Onlinegenericmedicine.com usually require a valid prescription from a healthcare provider for prescription medications. This practice is essential to ensure the safe and appropriate use of prescription drugs. What are the shipping and delivery policies of Onlinegenericmedicine.com? Onlinegenericmedicine.com typically provides various shipping options, including standard and expedited delivery. Delivery times and shipping costs may vary based on the customer's location and the urgency of the order. Some online pharmacies also offer international shipping.

Price list

Price List Despite claiming to be India's best, the website's subpar content quality suggests a lack of attention to detail. Scamadviser has given the pharmacy a trust score of 1 out of 100%, primarily due to allegations of providing prescription medications without qualified medical oversight. Drug Name Price
silagra vs suhagra From \$0.15 suhagra force From \$0.1 nizagara 100mg for sale From \$0.2 kamagra 100 From \$0.4 tadacip cipla From \$0.66

Customer support

Customer Support The website's substandard content quality and Scamadviser's low trust score of 1% raise doubts about its professionalism. It offers 24/7 customer service, but the overall impression may deter potential customers.

Discounts

Discounts Onlinegenericmedicine.com offers generic and brand-name medicines sourced from various countries. While it claims to purchase medications from FDA-approved and WHO-regulated facilities, there is no concrete evidence to support this. LegitScript classifies the pharmacy as rogue and refuses certification due to falling below safety, security, and legal standards.

Conclusion

Conclusion OnlineGenericMedicine operates without proper licensing, indicating non-compliance with legal requirements and a lack of transparency. Customer reviews on TrustPilot are mixed, with some praising the service while others report issues with undelivered orders and unresponsiveness. Given the suspicious details uncovered, this pharmacy is deemed high-risk and potentially a scam, warranting a 1-star rating.
