RXiRX.com

Overview

History This is our next rxirx.com review devoted to the company which rather new on the online drugstores market. In the last rxirx.com review we already mentioned that the company operates less than five years but it is already well-known drugstore.

License

License These days it is very suspicious if the company operates beyond the license and such a case plays against the company image. That is why our online pharmacy obtains all necessary licenses, issued by corresponding state bodies, in order to comply with the local legislation.

Drugs

Drugs In our future next rxirx.com reviews we are going provide you with more detailed data about medications the company trades. Today we can say that the range of drugs is rather wide and except pharmacy products it includes skin care products for both adult people and children. The list of all products includes both well-known brands and not so famous, but still of good quality.

Price list

Price list Pricing policy here is based on demand. We know that the company supplies some medications directly from the manufacturers, which makes the price for these goods more competitive. In the forthcoming rxirx.com reviews we shall try to discover this issue.

Customer support

Customer support As for Customer support, we can say that it operates 24/7 except for state holidays when it operates only eight-hour shift. Maybe later the company will change this rule.

Discounts

Discounts During the first year of its operation, the company did not have any rxirx.com discount policy. In a year, for the purpose to attract customers, the company implemented rxirx.com discount policy, which is updated every year. Now every regular buyer is entitled for 5% rebate for every purchase, and 10% rebate for purchase amounting to minimum 39 dollars. Moreover, the company recently introduced so-called rxirx.com coupon system, under which the buyer can get maximum 15% rebate if complies with certain conditions. The rxirx.com coupon system is regularly updated.

Conclusion

Conclusion We recommend this online drugstore as we see the good potential and a wish to develop in accordance with modern trends.
